

In August 2022, electricity bills for US consumers jumped the most since 1981, gaining 15.8% from the same period a year ago.¹

Going solar is one of the best ways to counteract unexpected increases in electricity rates and larger energy bills. But, not everyone wants to take out loan.

LightReach, a new energy plan, is an easy way to generate clean power and purchase it at a lower cost than your utility. The system is owned and maintained by by the solar company, and you pay a low fixed-rate, helping you to see quicker savings.

LightReach Benefits

- Realizing fast savings
 Clear, transparent pricing and confidence that you can get a reduced rate on energy
- Safeguarding you from escalating energy rates
 Predictable rate with an affordable monthly plan. You pay a fixed monthly rate to use the solar system and its renewable energy to reduce your utility bills.
- Low risk & comprehensive protection
 Predictable monthly payments and
 25 years of solar system monitoring,
 maintenance & protection.
